Kansas Instructors for the Deaf

is your organization, created over 20 years ago to provide networking and training opportunities for Teachers of the Deaf/Hard of Hearing across Kansas.

A group of previous officers and current members met recently to begin the process of re-establishing our annual Fall conference. It was decided that we would move forward with a Leadership Board instead of officers.

Interested in helping during the conference? Interested in being on the Leadership Board to help make important decisions about the future of KID?
